

# Scream My Name

LMFAO

Every time it's the same old thing,  
You bring me out like a beauty queen  
I don't mind if you play your game  
'Cause I know I'll make you scream my name  
Scream my name, scream my name  
Scream my name, scream my name

In the club doin' my thing,  
At the bar just sippin' a drink,  
You walked by in those tight ass jeans,  
Gave me a moment to wink  
When I see that booty poppin' out  
It was so strange to me  
Like a full boned wear wolf,  
Just tell 'em a three A to Z,  
Now I can tell by your attitude  
That you know you're by yourself  
The way you walk the way you talk  
It's like you got some goods yourself,  
I respect your hustle girl, but don't try  
To hustle me  
'Cause I'm a show you a pimp and where a gangsta' live  
And it runs in the family

And the way you're shaking it at the club  
Trying to make a brother fall in love  
Be dirty dancing me all night long,  
Then you leave me hanging girl you're wrong

Every time it's the same old thing,  
You bring me out like a beauty queen  
I don't mind if you play your game  
'Cause I know I'll make you scream my name  
Scream my name, scream my name  
Scream my name, scream my name

Girl you're hot, your body's on fuego  
We fit together like if we were two Legos  
We on the floor and we grind to the beat  
I love the way your body's moving when it's grindin' on me  
We got the drinks by the dozen and nobody's coming  
I don't care all I want is your lovin' I'm a sex machine,  
And girl you turn me on  
I get you on till the break of dawn.

And the way you're shaking it at the club  
Trying to make a brother fall in love.  
Be dirty dancing me all night long,  
Then you leave me hanging girl you're wrong.

Every time it's the same old thing,  
You bring me out like a beauty queen.  
I don't mind if you play your game.  
'Cause I know I'll make you  
I'm gonna make you  
I said I'm gonna make you scream my name

You know I want your body, your body wants me too  
You say I'm acting naughty but girl you're naughty too  
Your girls, they wanna leave I hear them calling you  
And see the Melony girl who you wanna do  
Girl cover me, let's play the scene  
We can have your fantasy  
Cover me let's play the scene  
You can have your fantasy with me

You know I want your body, your body wants me too  
You say I'm acting naughty but girl you're naughty too  
Your friends they wanna leave, girl they're calling you  
It's either them or me, girl who you wanna do
