

# Forgot To Forget

LMNT

I can't keep dreaming  
All this pain I'm feeling  
All in all, it's that you gone  
But why is it taking me so long?  
How can I move on?  
Without your love I'm long gone  
Turn back the hands of time  
Back to the day when you were mine

You and I were once together  
I wish we'd stayed forever  
My heart can't live without you  
Oh girl, can we work it out?

'Cause I can't do this  
I can't do that  
Can't see the good in our goodbye yet  
Even six months later and I still forgot to forget about you  
And I can't turn off  
It still runs hot  
Feeling the feelings I know I should not  
You're my best ex-lover and I still forgot to forget about you

Remember the laughter  
We shared with each other  
Now it's like a broken heart attack  
I'd give anything if you would take me back

Girl I'm so sorry  
I didn't mean to hurt you  
What I did I cannot explain  
I don't know why I was playing games

You and I were once together  
I wish we'd stayed forever  
My heart can't live without you  
Oh girl can't we work it out

'Cause I can't do this  
I can't do that  
Can't see the good in our goodbye yet  
Even six months later and I still forgot to forget about you  
And I can't turn off  
It still runs hot  
Feeling the feelings I know I should not  
You're my best ex-lover and I still forgot to forget about you

All I wanna do is stop my life and hit rewind  
All I wanna do is find you girl and make you mine  
Mine once upon a time  
Not so long ago

I can't forget, you yet, you know I can't do that  
The feeling is still too real  
To forget about you (forget about you)  
I can't forget you yet  
'Cause where my lonely heart's at

I can't see the good in goodbye  
To forget about you  
Ohhhh

'Cause I can't do this  
I can't do that  
Can't see the good in our goodbye yet  
Even six months later and I still forgot to forget about you  
And I can't turn off  
It still runs hot  
Feeling the feelings I know I should not  
You're my best ex-lover and I still forgot to forget about you.  
[Chorus repeat until fade]
