

Look around and realize nothing's left
It's hard to remember and easy to forget
Seems like such a perfect time to second guess
But now is not the time to quit
Now is not the time to quit

You let them know you're alive
You let them know you'll just be ..
You'll never know until you try
You'll never know if you just run
If you just run

Their lack of faith in you is nothing new
You've just about gotten used to it
To sneak around is all that's left to do
Cause now is not the time to quit
Now is not the time to quit

You let them know you're alive
You let them know you'll just be ..
You'll never know until you try
You'll never know if you just run

It's now or never
It's time to come in
Cause now is forever
It's time
Time to get through this

You let them know you're alive
You let them know you'll just be ..
You're alive (You let them know, You let them know)
You're alive (You let them know, You let them know)
You let them know you're alive
You let them know you'll just be ..
You'll never know until you try
You'll never know if you just run
