Hope You're Proud Of Me Girl

Lobo

See me rising like the moon in the early evening I hope you're proud of me girl Watch me soaring like a bird in the early morning I hope you're proud of me girl

You wanted me way up there in the air And now that I'm there
I hope you're proud of me girl

See me flying like a cloud way up in the sky in I hope you're prod of me girl Watch me crashing like a fool who don't know what he's asking I hope you're proud of me girl.
