## **Cha! Said The Kitty**

Local H

Sucking like a crack hack Feeling like an eight-track Out of whack

All the times a clucking no A suck it and a suck it

I don't want to live with that And you don't want to take it back And I don't want to be a rat And you don't want a kitty cat

Reaching for the phone ring Settle for the chump change Settle down

Make it like a godsend Feeling like a has-been Remember when

All the times a clucking no A suck it and a suck it All the times a clucking no A suck it and a suck it

I don't want to live with that And you don't want to take it back And I don't want to be a rat And you don't want a kitty cat
