

Halcyon Days (Where Were You Then?)

Local H

Those halcyon days are here
They went away but they're back again
This glow never ends
I'm numbed out on bliss that comes on like a friend
And it's great

A fantastic waste of time
Life is long but it all moves so fast
You're first then you're last
Afraid of the future but I'm bored with the past

And it's great
Yea, it's great
It's so great
Remember when you wanted it all to end?

My last will and testament
Was full of things that I didn't really mean
I want to come clean
But these words are easier to write than to read
Or to say, my mood swings are severe
But halcyon days are here anyway
I'm held in your sway
The drug of you love has me slipping away

And it's great
Yea, it's great
It's so great
Remember when you wanted it all to end?
