

## No Problem

Local H

I'd Like to think that it's out of here  
You'll blow into town maybe twice a year  
To Check on me to see if I'm still here  
and make me think that it's my idea

and everything in the world is free  
I come to you so easily  
I never felt a sense of meaning  
you that I refuse to see

You had me but its over now [x3]  
It's No Problem [x2]

I'm not really sure why I let you win  
or even why I let it begin  
I've always been an easy in  
I'm easy out the door again

I know it's only because your down  
that you ever wanted to come around  
Just a little secret in a little town

You had me but its over now [x2]  
You'll get my attention again somehow

It's No Problem [x4]
