Local Natives

In a thousand ways
I'd feel the weight of
I'd feel the weight of
Carolina's pain
What's left to take from?

Closer now they came
Farther now I'd run
As the other way
Violence without cause
Hours till the dawn
As the other way
In a thousand ways
The sound of The sound of broken glass
In a single frame
Closer gets television
Everyone's tuning in

Closer now they came
Farther now I'd run
As the other way
Violence without cause
Hours till the dawn
As the other way

In a thousand ways
I see the changes
I'd feel awakened
I will stay the same
Where is the morning?
Where is the morning?

Closer now they came
Farther now I'd run
As the other way
Violence without cause
Hours till the dawn
As the other way
