

Psycho Lovers

Local Natives

When the sun that covers me
I let a lifetime go
Then all we want is a love to lean on

And we just learned how to breathe
And L.A. falls into the sea
Then all we want is a love to lean on
We won't give up

Heaven wants us alive
Psycho lovers out of our minds
Heaven wants us alive

I've got a violence in my dreams
I've got a makeup on my teeth
We're all hysterical for love
A love to lean on

We won't give up

Heaven wants us alive
Psycho lovers out of our minds
Heaven wants us alive

When the light that covers us
We let a lifetime go
And all we want is for love to be enough

We won't give up
