

# Who Knows Who Cares

Local Natives

I've been going down  
Down into the river baby  
Listen to the sound  
It's something only god knows  
You figure it out, I can't stay  
Water's in the clouds  
Is my life about to change?  
Who knows, who cares

So we took a van down to colorado  
Where we ran into the dead  
I took you by the hand  
Know that even with your doubts, it's ok  
Take into account that it's not about to change  
Who knows, who cares

You could let it down  
Jump into the river baby  
Easy as it sounds  
It's never quite as easily done  
The current has us now, it's ok  
Take into account that it's all about to change  
Who knows, who cares

No one's been there  
But I don't care  
I know all have been there  
I don't care  
I know
