

## Darkness Of Ignorance

Lock Up

Shall we condemn ourselves  
Knowing the shit that goes on  
Fooling yourselves to the point  
That you just don't belong  
Bring me the head of the one  
Who decides what is right  
Then we'll exist to resist  
And e'ist to persist  
Unclean - Censor claims axe the choice  
Obscene - Silence falls upon no voice  
Controlled views, faceless acts butchery  
We'll decide this is called maturity  
Come out from the darkness of ignorance  
The dirt ridden stench of censorship  
Come out from the darkness of ignorance  
This dirt ridden stench is choking me  
Words are spoken often but are backed by nothing  
Since dawn of time, hate, murder, rape and pain  
Still we point the finger in the wrong direction  
For years it seems to me they're hidden from blame
