

## Infiltrate And Destroy

Lock Up

Molding the extremity, contorting its depravity  
Life can be a deformity, a solitude of pain, of pain

The clawing hands of perversity writhe  
They twist, they tear our fears, our strife

Infiltrate - infiltrate and destroy  
Infiltrate - infiltrate and destroy

Progressions of failure they intensify  
Inhaling the stench of compromise

Regrets in life that we all harness  
The bitterness that threatens our willpower

That threatens our willpower  
That threatens our willpower

Let society be the grindstone  
On which you sharpen your hatred

Regrets in life that we all harness  
The bitterness that threatens our willpower

Inhaling the stench of compromise

Infiltrate - infiltrate and destroy  
Infiltrate - infiltrate and destroy

Regrets in life that we all harness  
The bitterness that threatens our willpower

That threatens our willpower  
That threatens our willpower

Will society be the grindstone  
On which you carve your hatred?

Regrets in life that we all harness  
The bitterness that threatens our willpower

Progressions of failure they intensify  
The clawing hands of perversity writhe
