Infiltrate And Destroy

Molding the extremity, contorting its depravity Life can be a deformity, a solitude of pain, of pain

The clawing hands of perversity writhe They twist, they tear our fears, our strife

Infiltrate - infiltrate and destroy
Infiltrate - infiltrate and destroy

Progressions of failure they intensify Inhaling the stench of compromise

Regrets in life that we all harness The bitterness that threatens our willpower

That threatens our willpower That threatens our willpower

Let society be the grindstone On which you sharpen your hatred

Regrets in life that we all harness The bitterness that threatens our willpower

Inhaling the stench of compromise

Infiltrate - infiltrate and destroy
Infiltrate - infiltrate and destroy

Regrets in life that we all harness The bitterness that threatens our willpower

That threatens our willpower That threatens our willpower

Will society be the grindstone On which you carve your hatred?

Regrets in life that we all harness The bitterness that threatens our willpower

Progressions of failure they intensify The clawing hands of perversity writhe
