

Days Of Youth

Locksley

In your body full of stars, constellations made of scars
Calls a time when you were young, body baking in the sun
How I hope that you can see, I see you innocent and free
That's the way that you will stay with the passing of your days

Be in love with you tonight
Beside an old house full of light
City cold and far away can be anyone when day comes down

Heard your voice, it took me home, and I no longer need to feel
Love was keeping me from something that I didn't think was real
We were walking, we were talking of our wounds that wouldn't heal
We agreed that just the need for love had something of appeal

Be in love with you tonight
Beside an old house full of light
City cold and far away can be anyone when day comes down
When day comes down

(And I'll try) And I'll try to
(Remember) Remember you
(When we were new) When we were brand new
(In our days of youth) In our days of youth

Has it truly been this long since we were laughing out a song?
And our hands just seemed to fit held tight into the other's grip
Take the sadness from your gaze and all the bad thoughts I'll erase
Hold your body to the sun 'til the sun has come and gone

Be in love with you tonight
Beside an old house full of light
City cold and far away can be anyone when
City cold and far away can be anyone when day comes down
When day comes down, when day comes down

Be in love, aaah
