

The Way That We Go

Locksley

Every night after hours in the darkest part of my life
It seems that my heart will go
Unless you stay, it's okay, by the way: I love you

You're too young or too old, nevermind it's
Not the same, just a game, we're so close you must know
Not alone on the phone, just a drone, but it's true that I love
you

Ooh, 'cos you're mine and I'm yours
— just wanted you more
Not too fast or too slow
That's the way that we go

When she calls, says hello, all it takes for me to
Drop the phone, run back home, and wait to meet you
She sets me on fire, fills me with a longing desire

Ooh, 'cos you're mine and I'm yours
— just wanted you more
Not too fast or too slow
That's the way that we go
Not too fast or too slow
That's the way that we go

I can't wait for awhile
It's not me, and she's not such a child
One day she'll whisper the words
And that day she'll be mine and I hers

Ooh, that's why I adore
You make me want it more
Wait for me and you'll see
Is the way that she goes
Yeah I'm fine, but in time
Is the way that I go

Not too fast or too slow
Is the way that we go
Not too fast or too slow
Is the way that we go
Not too fast or too slow
Is the way that we go
