

City Lights

Locnville

I remember nights just looking at the lights in the city, in the city, in the city,
and it seems like the street lights shine so far away,
I remember nights just looking at the lights in the city, in the city, in the city,
And it seems like the street lights shine so far away.

I want you to feel my heart tonight.
I want you to feel my heart tonight.
I see the road (I see the road),
I see the glow (I see the glow.)
A kino flow,
But I don't know where this one goes.
Nobody told me (nobody told me)
nobody showed (nobody showed)
and nobody even took the time to get to know me,
But convinced I go,
I feel invincible,
Inch by Inch I go.
I'm in the zone, don't miss the show, don't miss the show.

I remember nights just looking at the lights in the city, in the city, in the city,
and it seems like the street lights shine so far away,
I remember nights just looking at the lights in the city, in the city, in the city,
And it seems like the street lights shine so far away.

I've been down to the river by the city,
Can't believe
You don't remember,
Could've sworn that you were with me.
Things are not always what they seem.
The city holds mystery in the heart of what they dream.
I thought you already knew.
In the darkness we consume.
What a horrible part of awesome thoughts
And all to be construed.
That's why I
Never forget the lights, never the lights, never regret the night x4
'cause I

I remember nights just looking at the lights in the city, in the city, in the city,
and it seems like the street lights shine so far away,
I remember nights just looking at the lights in the city, in the city, in the city,
And it seems like the street lights shine so far away.

And it seems like the street lights shine so far away.
