

Don't Stop Me Now

Loft

Don't stop me, don't stop me now
I won't stay another day
Don't stop me, don't stop me now
I will make it anyway
There were times I needed you and trusted you like no one else
before
Everything you said to me was me I have to go away
So don't stop me, don't stop me now
I won't stay another day
Don't stop me, don't stop me now
I won't stay another day
I don't know what you're doing
We had a perfect love affair
And feelings kept on moving
We both running in other
But suddenly you change boy
This feeling's driving me insane
Now I can hardly feel joy
When you say your love is still the same, so...

Believe me I will make it
You are standing in my way
Your kind I just can't take it
With me this is your final day
Now I am free to do things
I've never ever did before
I really need no helping
I will reach the highest floor so...
