

Live it up

Loft

You got to live your life
Don't you know life is just too short
Just gotta get up on your feet
And party down
Come on !

You got to live your life
And live it up
Come on and live your life
And live it up
You got to live your life
And live it up
Come on and live your life
And live it up

Life is too short to bring yourself down
You've got to get up on your feet and let's party all around
You got to live your life
And live it up
Come on and live your life
And live it up

You got, you got, you, you got
You got, you got to live it up

You got to live your life
Don't you know life is just too short
Just gotta get up on your feet
And party down
Come on !
