

## Live it up

Loft

You got to live your life  
Don't you know life is just too short  
Just gotta get up on your feet  
And party down  
Come on !

You got to live your life  
And live it up  
Come on and live your life  
And live it up  
You got to live your life  
And live it up  
Come on and live your life  
And live it up

Life is too short to bring yourself down  
You've got to get up on your feet and let's party all around  
You got to live your life  
And live it up  
Come on and live your life  
And live it up

You got, you got, you, you got  
You got, you got to live it up

You got to live your life  
Don't you know life is just too short  
Just gotta get up on your feet  
And party down  
Come on !
