

# Respect

Loft

When you're feeling down and low  
And there's no place you can go  
When your job's driving you mad  
And you're feeling kind upset

You're about to lose your pride  
Cause your lover said goodbye  
There's only one thing you can do  
That is keep the faith in you

Respect, respect, respect yourself  
Respect, respect, respect yourself  
Respect, respect, respect yourself  
Respect, take your chance and live your dreams  
Respect, respect, respect yourself  
Respect, respect, respect yourself  
Respect, respect, respect yourself  
Respect, take your chance and live your dreams  
Take your chance and live your dreams  
Take your chance and live your dreams

The will you have is gone  
There's no way to carry on  
You're about to lose control  
Just let your feeling show  
You just have to trust yourself  
Put your troubles on a shelf  
And you have to find your flame  
So you can warm it up again

Live your dreams  
Live your dreams
