

# Good Night White Pride

Loikaemie

You pick on the weak  
You're only strong in groups  
Can't do shit on your own  
You pick on those who are few  
Right winged scum  
You have no place in our scene  
Right winged scum  
We'll teach you what skinhead really means

You're the sickness of our generation You've infested almost every nation  
You're the plague of our society You're our most hated enemy

Listen what we have to say: Good night white pride  
Only what we have to say: Good night white pride

Good night, good night, good night, good night white pride  
Good night, good night, good night, good night white pride
