

& Me You

Lollipop

You say you luv me, and what you'd do for me
But you're uncertain, how will i react
You look real nervous, so scared that i'll turn
And never look back (whoa)

I didn't swear i would stay (Did i)
I never thought you would doubt me that way
But if you need an answer in all honesty

You say you want me, each ady you love me deeper
Well baby and me u
You long to hold me, i make your life much sweeter
that's how i feel for you too

(oohh etc)

I move real slowly, i guess it's just my away
That doesn't mean i don't feel deep inside
When you're not with me i want to be there just holding you tight
(so tight)

It's not like i feel unsure (oh)
My heart is focused like never before
And if you need an answer in all honesty

You say you want me, each ady you love me deeper
Well baby and me u
You long to hold me, i make your life much sweeter
that's how i feel for you too

You say you want me, each ady you love me deeper
Well baby and me u
You long to hold me, i make your life much sweeter
that's how i feel for you too
