

This Is The Reason

Lollipop

And now I won't be afraid
step by step I have to go away
feel lost in an empty place
one more time let the memories feel my mind
dreams that you've lost you'll find somehow
love is just all around
night are so cold I'm falling down
darkness is all around

Chorus: This is the reason right now
for me to let you go away
have to believe it right now
you weren't meant for me to stay

These are the rules we play
let me guess just what you feel inside
so now I can see your face
rescue me from the shattered dreams of life
hopes that you lost you'll find somehow
life is just all around
hold on to love just one more time
sadness is all around

Chorus:

Don't let you stay you go on your away (Uuuuhh!)
don't let you stay you go on your away

Hold on to love just one more time
sadness is all around

(Don't let you stay you go on your away) 4x

This is the reason right now
for me to let you go away
have to believe it right now
I have to go oooohhhh!
This is the reason right now
You have to come on on go away
To believe it right now

Aaaahhhh...
