

When The Rain

Lollipop

Life is easier when you're young
lovely places all around
don't you miss what you coul have found
looking for a better ground

I need you and you need me
life could be a melody
don't be afraid and take my hand

When the rain is falling on my life
finding me, a smile,
beating of my heart,
the sweetest dream of mine
It's you to be with me
to catch the moon and see
how beatyful can be
just wondering

Can't you find a reason to be
happy all the time with me
reach the confidence you my need
hidden deep inside your dreams

Sitting on the world you'll see
roun and round going easily
C'mon baby dance with me

When the rain is falling on my life
finding me, a smile,
beating of my heart,
the sweetest dream of mine
It's you to be with me
to catch the moon and see
how beatyful can be
just wondering

When the rain is falling on my life
finding me, a smile,
beating of my heart,
the sweetest dream of mine
It's you to be with me
to catch the moon and see
how beatyful can be
just wondering

Don't waste your time
keep on figth till you know
all that you've got
it is just what you want
trust in yourself
in your mind in your strenght
that's what will take you alive... forever

When the rain is falling on my life
finding me, a smile,
beating of my heart,
the sweetest dream of mine

It's you to be with me
to catch the moon and see
how beatyful can be
just wondering

When the rain is falling on my life
finding me, a smile,
beating of my heart,
the sweetest dream of mine
It's you to be with me
to catch the moon and see
haow beatyful can be
