

You

Lollipop

Sitting here alone near my coffee cup
Waiting for somebody that may not arrive
Wearing my sunglasses just to hide the pain

I want you stay
Love as always been a strange thing to me
You keep and you leave everytime you need

I don't wanna cry a tear for you
But i know i'll do
We now, we need each other
May be you don't, may be you don't

I don't want nobody
I only want you

You only you
That is true
Hey wanna make me feel so good
Just explain all this pain i don't need nothing else but you
Only you that is true
I just keep stop loving you
Just explain all this pain i don't need nothing else baby

And distance is enough to make me fly
Suddenly on innerpiece i own inside living in the memory
Of our days
I want you again

Even if i think that you no care
Anotherday comes tell me
The way try and forget to i am...

Theyr you i don't want nobody
I only want you
We know we need each other
Some want to do

Every day in my life
I give you honesty
I give you everything
And i don't have to you
Don't want i promise
Don't want there to fall
Just stop again with my heart
I want stop again with my heart
I want let to go
