

You

Lollipop

Sitting here alone near my coffee cup
Waiting for somebody that may not arrive
Wearing my sunglasses just to hide the pain

I want you stay
Love as always been a strange thing to me
You keep and you leave everytime you need

I don't wanna cry a tear for you
But I know I'll do
We now, we need each other
Maybe you don't, maybe you don't

I don't want nobody
I only want you

You only you
That is true
Hey wanna make me feel so good
Just explain all this pain I don't need nothing else but you
Only you that is true
I just keep stop loving you
Just explain all this pain I don't need nothing else baby

And a dance is enough to make me fly
Suddenly on innerpiece I own inside living in the memory
Of our days
I want you again

Even if I think that you no care
Another day comes tell me
The way try and forget to I am...

They're you I don't want nobody
I only want you
We know we need each other
Some want to do

Every day in my life
I give you honesty
I give you everything
And I don't have to you
Don't want I promise
Don't want there to fall
Just stop again with my heart
I want stop again with my heart
I want let to go
