London Boys

Dancing!
My world is a sunny holiday
Blue skies are waiting
I'm on my way.

I'm all out of love
Baby, blue and alone
I need your hot love energy
I dial and I dial
Baby, pick up the phone
An' give me hot love energy

It's a Saturday night
Got music on my mind
But then, my feet don't wanna move
I need you honey,
Dancin' by my side
To get right in the groove.

I'm dancing!
My world is a sunny holiday
Blue skies and music
Are here to stay

I'm dancing!
Romancing my lonely life away
Good, good times and music

I'm on my way.

Dance! Dance! Dance!
Keep your body moving
Dance! Dance! Dance!
Movin' and a groovin'
Dance! Dance! Dance!
The Boogie-Woogie-Woogie, right now.

Oh, your kinda love
Drives you baby insane
You give me hot love energy
Around an' around an' around it goes
I need your hot love energy

Communication's purely physical
You gotta feel it in your shoes
Your body talks,
We don't need words at all
To get right in the groove.

When we're dancing...
This world is a sunny holiday
True blue skies and music...
