

Sweet Soul Music

London Boys

Dreams will live in every new generation
We send our music right across the nation
Let everybody see the world that we're building
And all the precious love and joy it's bringing.

Hear the rhythm, feel the sound
Detroit city all around
Move your body, take a chance
Get up and dance!

Sweet soul music!
Talking 'bout
Sweet soul music!
From the valley to the hill
Ain't nobody standin' still
Everybody's jumpin'
Listenin' to the record spin

Sweet soul music!
Gimme some
Sweet soul music!
Feel the power and the love
Of the higher ground above

Songs that tell about love and emotion
And every tune is like a true devotion
Let every sister, brother hear what we're saying
Let there be love and peace for all, I'm praying
