In An I Love You Mood

Londonbeat

Someone just reminded me of you tonight
She tossed her hair, she caught my eye
She took me by surprise
Every note of every chord I play
The words of every song I sing
Mean nothing, no!, without you, girl

{I'm in an I love you mood
Oh, I've been like that all day
I'm in an I love you mood
Oh, I've been thinking,
it's more than I can take}

Some dreams keep reminding me
Of lonely nights
You reach for me
I touch your smile
Kiss your sweetie eyes
Everyday I wake alone
Now our house is not a home
And it means nothing
Without you, girl

Ha, can you hear the pain inside of me
It's calling out your name
Calling out your name
…
I'm in a you broke into my heart mood
