

Who knows where this road will end
What you're gonna miss
Life's not long enough
To spend it on regrets
All I know is what I'm seein' in your eyes
Hold me close before the moment passes by

If ever there was a night
If ever the time was right
It's now
Nothing else matters
If ever a meant to be
Truly was meant to be
It's us
Right here, right now

Say a million other dreams
Haunt you in your sleep
It's hard to know which ones
Are the ones that you should keep
But look around
Don't get caught up in the past
Put your faith in the ones you think will last

If ever there was a night
If ever the time was right
It's now
Nothing else matters
If ever a meant to be
Truly was meant to be
It's us
Right here, right now

If ever there was a night
If ever the time was right
It's now
Nothing else matters
If ever there was a night
If ever the time was right
It's now
Nothing else matters
If ever a meant to be
Truly was meant to be
It's us
Right here, right now
Right now
Now
