

## Summertime

Lonestar

I like your look in that sweater  
All warm and bundled up tight  
But I keep picturing something a little different tonight  
I see you in a bikini  
One lazy toe in the pool  
Laid back and sippin' on something long, tall, and cool

Yeah, I can't wait for a warm breeze blowin'  
Green grass growin' and the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime  
Oh, the summertime

I'm gonna find us some tickets  
To a tropical isle  
You just see if your mama can keep the kids for a while  
We'll take our drinks with umbrellas  
We'll take a room with a view  
I'm gonna take my sweet time makin' love to you  
That's what I'm gonna do

I can't wait for a warm breeze blowin'  
Green grass growin' and the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime  
Feel your body next to mine  
In the summertime

Yeah, I can't wait for a warm breeze blowin'  
Green grass growin' and the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime

Oh, I can't wait for a warm breeze blowin'  
Green grass growin' and the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime  
Feel your body next to mine  
In the summertime  
Summertime, summertime  
In the summertime
