

Summertime

Lonestar

I like your look in that sweater
All warm and bundled up tight
But I keep picturing something a little different tonight
I see you in a bikini
One lazy toe in the pool
Laid back and sippin' on something long, tall, and cool

Yeah, I can't wait for a warm breeze blowin'
Green grass growin' and the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime
Oh, the summertime

I'm gonna find us some tickets
To a tropical isle
You just see if your mama can keep the kids for a while
We'll take our drinks with umbrellas
We'll take a room with a view
I'm gonna take my sweet time makin' love to you
That's what I'm gonna do

I can't wait for a warm breeze blowin'
Green grass growin' and the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime
Feel your body next to mine
In the summertime

Yeah, I can't wait for a warm breeze blowin'
Green grass growin' and the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime

Oh, I can't wait for a warm breeze blowin'
Green grass growin' and the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime
Feel your body next to mine
In the summertime
Summertime, summertime
In the summertime
