

## March into the arena

Lonewolf

Now the dawn is to fall on the scenery  
Hunted unbelievers are praying in fear  
Given to the animals  
Cause they're going astray  
Freedom's price minority pays  
Mothers hold their children  
Praying the curtain to fall  
March into the arena  
Into world's circus it's bloody law  
They want to tame the  
Flame of freedom  
March into the arena  
Into world's circus it's bloody law  
Hypnotized lambs want to see your fall  
Is there really so much that  
Has changed our days?  
The ruler is stalking those in his way  
The public opinion has  
The thumbs turned down  
Grand together fight for your own  
Boiling the arena explodes  
Men turn into animals  
March into the arena...  
They want to tame our flame  
But we are strong together
