## March into the arena

Lonewolf

Now the dawn is to fall on the scenery Hunted unbelievers are praying in fear Given to the animals Cause they're going astray Freedom's price minority pays Mothers hold their children Praying the curtain to fall March into the arena Into world's circus it's bloody law They want to tame the Flame of freedom March into the arena Into world's circus it's bloody law Hypnotized lambs want to see your fall Is there really so much that Has changed our days? The ruler is stalking those in his way The public opinion has The thumbs turned down Grand together fight for your own Boiling the arena explodes Men turn into animals March into the arena ... They want to tame our flame But we are strong together
