

## Morbid beauty

Lonewolf

Two centuries ago  
In a Hungarian castle  
Lived the countess Bathory  
Beauty of blackest soul  
Ceremonial's ancient rites  
Ritual's of blood  
The search of immortality  
To be forever young  
Sacrifice blood is life  
A young girl is enchained  
Lost in the dungeon's night  
Naked the beauty appears  
In her fist a dagger shines  
Excitement gleaming eyes as the steel  
Cuts the young flesh  
Bathed in still warm spilling blood  
A rebirth through death  
Sacrifice blood is life  
Screams of pain echo in the halls  
Screams of blood down the walls  
Bath in warm blood to be immortal  
The countess was the queen of evil
