

## Pagan glory

Lonewolf

Centuries ago before Christianity  
Raped and stole our legacy  
Forgotten mystic ages of mystery  
As nature animal and men  
Lived in harmony  
Through the darkest forest we travel on  
Where the snow it never stops to fall  
Where the wolves they howl eternally  
We keep on singing pagan glory  
An alone women  
Had knowledge in astrology  
Or a wizard knowed of medicine  
Christianity soon condemned  
As heretics such men  
And they destroyed pagan glory  
Through the darkest forest we travel on  
Where the snow it never stops to fall  
Where the wolves they howl eternally  
We keep on singing pagan glory
