

# Make Me Whole

Longwave

Make me whole now  
Take me in  
I want the new life to begin  
In your arms I recognise your face  
No redemption in the end  
I'm so far gone I'm back again  
You're on my knees I recognise your face  
Crush the world beneath your fist  
Kill yourself just to exist  
Deny the mystery that stays  
Waste a year  
Waste a year away  
Looking down I hang my head  
Looking in already dead  
Look at you I recognise my face  
See the death I left behind  
Know the after life in time  
No more emptiness  
No more waste  
Smash the blackness with a screen  
No one here's the sound it seems  
Tonight a permanence that stays  
Waste a year  
Waste a year away  
Pull your insides  
Pull your insides  
Pull your insides out  
Deny your lover  
Betray your other  
Redeem you from without  
Pull your insides  
Pull your insides out  
Make me whole now  
Take me in  
I want the new life to begin  
In your arms I recognise your face  
Loving this I pay a price  
Loving you I sacrifice  
You're on my knees I recognise your face  
Crush the world beneath your fist  
Kill yourself just to exist  
Deny the mystery that stays  
Pull your insides out  
Pull your insides out  
Pull your insides out  
Pull your insides out  
Pull your insides  
Pull you insides out
