

Meet Me At The Bottom

Longwave

I wasn't sure but know I'm certain
Its just all coming back again
So lock the door and pull the curtain
And help me wipe away this stain
Coming down to cut you open
Slipping through your every crack
Another night and I'm hoping
Your gonna let me take it back

But when they've got you they've got you by the balls
And in this light you can't see anything at all
And you know you can meet me at the bottom

It only takes half a second
It comes in quick and then it grows
And I can't find my own protection
The more I hide the more it shows
So let me take another hit
I'm not afraid of what is coming
I want to be inside of it
And I don't care which way I'm running

But when they've got they've got you by the balls
And in this light you can't see anything at all
And you know you can meet me at the bottom and when they've got
they've got you by the balls
And in this light you can't see anything at all
And you know you can meet me at the bottom
At the bottom
