I Found A Dream

Lonnie Johnson

I found a dream and it really came true
I found a dream when I found you

My love for you, it couldn't be wrong
My heart cries for you and for you alone

I lie awake, waiting for day to break
Just hoping you would come along
Said to myself, I say to myself
That true love can't be wrong

I found a dream and it really came true
I found happiness when I fell in love with you

I lie awake, waiting for day to break
Just hoping you would come along
And I said to myself, yes, I said to myself
That true love can't be wrong

I found a dream and it really came true
I found happiness when I fell in love with you
