

# It's Been A Long Time Since I Smelled Beautiful

Look Mexico

When we're out, you whine about your back.  
Maybe you strained it. And it hurt.  
Man I've been there too.

Cause we bent, bent over backwards.  
And it hurt, but you knew it would.

Will you compromise, or will you say what's on your mind this time?  
Will you smile for me? Or will you say what's on your mind? This time...

But we're not, we're not keeping quiet.  
So if you think you're ready...

It's our time now.
