

Angel

Loona

I never ever wanted to see
How bitter life can be
I used to see the colours so bright
But now I have to sigh

Nothing could change my vibe
Always putting on my smile
And if the pressure was on me
I went dancing all night

Now I need you
So please be there for me
Guide me through the night
Feel I'm going crazy Cos I'm lost and lonely

Ooooo Angel I need u by my side
Ooooo Angel tears are falling
I need your smile I wonder how
To carry on with life now
Ooooo Angel it's hard to say goodbye

I never felt like this before
I'm broken up inside
see you still coming through that door
ooo i miss u by my side

I'm holding my head up high
putting on my smile
And if you're there then give me a sign
shine your guiding light

There'll always be an answer
If you look inside you
I know there is a brighter star
No I will never give up
I believe that I can be strong
I know that I can survive
