

Ginger & Lemon

Looptroop Rockers

On a good day you could be sure to find me
In the mike booth close the door behind me
With a fresh cup of ginger and lemon i start singing again
And it feels like it used to do back in the beginning
Though i never used to sing back then
But the rush and the ego trip
That i get when my people flip when they hear my voice on a beat so sick
Is the same as what i got back in embee's old crib
The feeling of free falling without a fear
Dinner's ready my mom's calling but i don't hear
I'm too busy playin hide and seek
The other kids ain't findin me then i'm a teen now i want some privacy
Didn't hang out with girls i listened to records
Created my own world where i couldn't get rejected
That's the mindstade i'm in candle lights make it dim open up the universe t
hen i step in

When i take that step that's it i'm gone
I'll never be the same again
Shut the door i don't care if the sun is up
When i take on sip and slip into that zone
No one can reach me there
I just chill and i pour myself another cup of
Ginger and lemon x5

On a good day you could be sure to find me
Leaving the backstage shut the door behind me
Had my ginger and lemon before i left the room
Only a few more steps until i do what i do
Look schumi straight in the eye
But can't focus my vision
Say some irrelevant shit at this point he don't even listen
He knows i'm in another place
Soon as i set foot on stage
Race down memory lane travel through time and space
I'm with petar in our helltour van
With my people hype mode in japan
Behind the curtains with a sore throat
Microphone in my hand
We headlining same time i'm a fan
All according to plan i breathe hard i could run thru a brick wall
Crush a critic slide past any pitfall
Fuck it we all in
You gotta play to win
Feel like it's do or die
When i'm stepping in

When i take that step that's it i'm gone
I'll never be the same again
The host announcin looptroop's coming up
When i take on sip and slip into that zone
No one can reach me there
After the show i'm a pour myself another cup

When i take that step that's it i'm gone
I'll never be the same again
When i take on sip and slip into that zone

No one can reach me there
