

## Marinate

## Looptroop Rockers

Feels like they're working against us sometimes  
Dark clouds when we needed sunshine  
But really who are they and why would they mind  
Us making a living and getting a little shine  
They're just too lazy to do what they're supposed to  
And we're pushing to pursue our goals you  
Know what they're saying if we need something done  
We need to do it ourselves stay strong in the long run

I been workin' all week still up on my feet  
Can't complain I'm a carry the weight  
Cannot let the negative vibes ever limit my life  
We press play and get carried away  
I take the good things in and the bad things too  
Soak it up let it marinate  
Baby let it all out if you ready roll out and get up for the Saturday

I gotta grin and bear it count to ten get on with my life again  
Can't break my spirit confident I got what it takes I'm competent  
Won't take no no for no answer I'm out to get it done  
That's how we got here how we're leaving how the trooper run  
I hear you yapping and bragging about what's 'bout to happen  
That's insecurity talking we more about the action  
We all about the passion  
You're shit is fuel for the fire  
Should be happy to cash in sounding truthfully tired  
Yup man I'm tired than a motherfucker  
No new deal they ain't signing a motherfucker  
Got my own label and I'm proud of that motherfucker DVSG  
But I'd be lying like a motherfucker  
If I told you my business's on lock and i piss in a pot of gold  
Living that rock n roll lifestyle  
I wish I'd sell what Tupac has sold  
But making my pocket swoll's lookin impossible right now  
So I bottle my rage till I get up on stage so I can keep that edge and cut t  
hrough the bull  
Looptroop Rockers'll blaze straight shock and amaze party people in the plac  
e lookin beautiful

Everyday just to make my pay  
When I'm done I wanna celebrate  
Feel like my work is vacation sometimes  
We get some time off from the frontline  
Get to sign off early unwind
