Quoted, hated, but maybe we made it
Cause we felt alienated, do what we do
They faded, don't need suits to get famous
Hell naw, we don't need no suits to get famous
Don't need to run, young entrepreneurs
Don't need to run, like my dad when I grew up
I mean, it runs in the blood
I'm a worker man, I'm hungry as fuck
I want it all, be all I can be, roll my bank from my buck
Other businesses, like running an extra mile, extra month
And we got energy, we live, like that extra punch
So when you sleeping in, and chill out on the weekend, friend
I'm in the window seat again, on the move til we meet again
My calender is out of control, the phone won't leave me alone
I'm booking them back, I'll be long gong
All the time, when we want to spend time
I mean baby, I already spent all of mine
Cause

I'm busy, you busy, we busy, they busy, the busyness
Time is running out - It's the busyness
She busy, he busy, too busy, to visit
It's the busyness - Time is money now - It's the busyness

I'm busy, you busy, we busy, they busy, the busyness
Tired of running round - It's the busyness
She busy, he busy, too busy, to visit
Try to turn it around

[Promoe]

I've been in this business for a couple a minutes
And it's gonna be some more minutes, before I'm finished
Been in this business for a couple a minutes
And it's gonna be some more minutes, before
Been in this business since they used to call money spinach
And I know they gonna find more ways for you to spend it
Rims are spinning, the windows tinted
No real women, but at least limos with bimbos in em
The worst spending, see the end beginning
Gaining nothing as we give up all our simple freedoms
We don't got time to exercise them anyway
Working so hard to maximize our little pay
We got leaders that televise what we would say
The revolution will be nuts, but not today
Cause,

I'm busy, you busy, we busy, they busy, the busyness
Time is running out - It's the busyness
She busy, he busy, too busy, to visit

It's the busyness - Time is money now - It's the busyness

I'm busy, you busy, we busy, they busy, the busyness
Tired of running round - It's the busyness
She busy, he busy, too busy, to visit
Try to turn it around

[Promoe]

Let my rest weary head
He won't let us rest until we're dead
So much stress
I know we've been busy,
Baby, I'm falling, I'm dizzy
I'm falling out of focus, when I'm calling long-distance
But, I got faith that it's gonna change
And we get more time for each other, but until that day

I'm busy, you busy, we busy, they busy, the busyness
Time is running out - It's the busyness
She busy, he busy, too busy, to visit
It's the busyness - Time is money now - It's the busyness

I'm busy, you busy, we busy, they busy, the busyness
Tired of running round - It's the busyness
She busy, he busy, too busy, to visit
Try to turn it around

Hey, hey
This the Looptroop Rockers
Rocking on and on and on and on
Keep em busy, keep em busy
