

# Devilish Enlightenment

Lord Belial

I'm a demon with dirty black wings  
I'm filled with thousands of burning sins  
From the deepest pits of hell I slither  
Destroying mankind to watch them wither

Excruciating, agonizing pain and suffer follows in my  
flaming path  
Unceasing lust for death, as I enlighten you: fell my  
wrath

I am the devil; I am the only thing you'll ever fear  
I am nothing but bereavement of all that you hold dear

I'm a demon with dirty black wings  
I'm filled with thousands of burning sins  
From the deepest pits of hell I slither  
Destroying mankind to watch them wither

Excruciating, agonizing pain and suffer follows in my  
flaming path  
Unceasing lust for death, as I enlighten you: fell my  
wrath
