

Lilith - Demonic Queen of the Black Light

Lord Belial

In the deepest forests
In the shades of grey
Beyond fear
Lilith - Queen of the black light awaits

She is one of the tyrants
She is one of the darkness
With a blaze of thorns
She will demand your soul
Behind the dark side of the mirror
In another dimension, when the black sun is awakening
Lilith - Queen of the black light awaits

When the night has come
She sings to me
Her echoes of silence from the cold mist
Surrounds me like a sea of fire
She mesmerizes me with her screams of silence
Lilith - Queen of the black light awaits
