

## Love Like Ghosts

Lord Huron

Yes I know that love is like ghosts  
Oh, few have seen it, but everybody talks  
Spirits follow everywhere I go  
Oh they sing all day and they haunt me in the night  
Oh they sing all day and they haunt me in the night

Yes I know that love is like ghosts  
Oh, and what ain't living can never really die  
You don't want me baby please don't lie  
Oh but if you're leaving, I gotta know why  
I said if you're leaving, I gotta know why  
Oh I sing all day and I love you through the night

Yes I know that love is like ghosts  
Oh and the moonlight baby shows you whats real  
There ain't a language for the things I feel  
And if I can't have you then no one ever will  
Oh, if I can't have you then no one ever will

I don't feel it till it hurts sometimes  
Oh go on baby, hurt me tonight  
I want ours to be an endless song  
Baby in my eyes you do no wrong  
I don't feel it till it hurts sometimes  
So go on baby hurt me tonight  
All the spirits that I know I saw  
Do you see no ghost in me at all  
Oh I sing all day and I love you through the night  
Oh I sing all day and I love you through the night  
Oh I sing all day and I love you through the night  
Oh I sing all day and I love you through the night
