

Afterlife

Lord Of The Lost

There is no love in the afterlife
In the afterlife
That's what she said to me
No love in the afterlife
In the afterlife
That's what she said to me

A fallen angel came to me
Not so long ago
She came to talk about a thing
A truth that I should know

That's what she told me

She told me to forget them all
The pictures in my head
She's been there and she can speak
For all the other dead

That's what she told me

There is no love in the afterlife
In the afterlife
That's what she said to me
No love in the afterlife
In the afterlife
Not like we want it
Not like we want it to be

My fallen angel ordered me
Another glass of wine
She said I'm here to make you see
We're running out of time

That's what she told me

There is no love in the afterlife
In the afterlife
That's what she said to me
No love in the afterlife
In the afterlife
Not like we want it
Not like we want it to be

It's for the living
Don't you follow me
It's for the living
Don't you follow me

That's what she told me
That's what she told me

There is no love in the afterlife
In the afterlife
That's what she said to me
No love in the afterlife
In the afterlife

That's what she said
That's what she said to me

In the afterlife

No love in the afterlife
In the afterlife

Not like we want it
Not like we want it to be
