

Epiphany

Lord Of The Lost

I make you undone
I am the reaper
Don't try to run
You're just a creeper when I come

My heart bleeds for you
But I'm not gracious
I envy you
I want to be mortal just like you

I make you undone
I am the reaper
Don't try to run
You're just a creeper when I come

And don't be afraid, it's over by now
You're starting to fade, beginning to drown
And life is too short
You're praying for grace
You're begging for love, for mildness

The day you die
I will kiss you
I hear you sigh
The curse of me will be the curse of you

I make you undone (I erase you)
I am the reaper
Don't try to run (I erase you)
You're just a creeper when I come

(Pain)
Afraid
Lifelong
Decay
When I come

And don't be afraid, it's over by now
You're starting to fade, beginning to drown
And life is too short
You're praying for grace
You're begging for love, for mildness

And don't be afraid

I make you undone
I am the reaper
Don't try to run
You're just a creeper when I come
