

## From Venus to Mars

Lord Of The Lost

In this world - I'm a stranger  
I am lost in memories - All around me  
I see danger - And too much reality

But time will tell  
And we will cross the bridge  
When we find it and step on it  
You take my fate in your hands  
You say that we have to be strong or we will die

I want to fly from venus to mars  
I want to slide across the stars  
I want to fly forever so far  
Until the day I die in your arms  
In your arms

I'm afraid - Sad and angry  
I have nothing in my hands  
I've been pure - Like a newborn  
Now the devil invites to dance

But time will heal  
And we will cross the bridge  
Set it on fire and bury it  
We run and leave this land  
You say that we have to be strong or we will die

I want to fly from venus to mars  
I want to slide across the stars  
I want to fly forever so far  
Until the day I die in your arms  
I want to fly from venus to mars  
I want to slide across the stars  
I want to fly forever so far  
Until the day I die in your arms

We never get our feet back on the ground  
Never settle down  
We never walk again if we can run  
Into the sun

I want to fly from venus to mars  
I want to slide across the stars  
I want to fly forever so far  
Until the day I die in your arms
